Save Your Time

Creating a full itinerary requires investing a lot of time, a deep local knowledge and ability to access services beyond the usual suppliers. How do you know a particular tour or local service is reliable or best suited to your client? How do you control payments and support the huge number of providers across one itinerary? We do all that hardwork so you can utilise your time in better ways.

One Point of Contact

No more 2 AM wake-up calls from a travelling client trying to find a driver, catch a train or dealing with delays or missed services. For you and your clients, Weka removes all those layers of trying to find who should be meeting them on the ground, so they have the freedom to simply enjoy their holiday. While you can rest assured that they're being looked after every step of the way.

Local Ground Support 24/7

Weka simplifies support as we are the direct support on the ground. Your client will have dedicated Weka team members in their destination's time zone. We update them directly with the local driver's number, direct them to our guide, have our local staff meet them in a time of need, and quickly issue and update their Weka Travel App with new tickets should they miss a train.

Full Commission on the Complete Package

No more small commissions on parts of a trip, with Weka Travel you receive full commission on the total package price and all that it includes. Any flight, ferry, train, accommodation, transportation, experiences, sightseeing, to even a restaurant booking, we take care of all the bookings, and you receive commission on everything. From the moment they land to when they depart, you can now capture more revenue with Weka Travel. We handle it all and take the stress and complications out of holiday bookings.

*Your client remains your client
even if they book another trip,
